THIS IS TO CERTIFY

THAT A LITTLE MORE THAN fourteen years ago, owing to a severe fit of sickness, I lost nearly all of my hair, the crown of my head becoming quite bald, and has been so ever since until the past summer, when hearing of the marvelous success of W. O. Moses in several cases where it seemed almost hopeless to do so, on Williams Creek, Cariboo, I was induced to let him try his skill on me—but without faith in his ability to restore my hair, it having been so long out; but miraculous as it may appear, in three months' time I was happily surprised to find a new growth of hair coming out, which is daily becoming stronger and thicker. To any one requiring his professional services as above, I would merely say that he possesses a skill and knowledge in restoring hair that I have never met with before.

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C.S L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

Earl RUSSELL has graciously favored J. T. Davenport with the following extract of a despatch from Mr. Webb, H. B. M's Consul at Manilla, dated Sept. 17, 1864.—"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives." Earl Russell communicated to the College of Physicians that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.

From W. Vesalius Pettigrew, M.D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

Extract from the General Board of Health, London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Chlorodyne except in sealed bottles, having the words, "Dr. J. Collis Browne's Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s. 9d. and 4s. 6d. ja24 1yw

The Road to Health and Long Life.
SECURED BY
HOLLOWAY'S PILLS

Impurities of the Blood.

In selecting the most appropriate medicine for a particular ailment, there may be some difficulty unless one can be found to purify, regulate, and improve the quality of the blood. These Pills possess and exert these three qualifications in an extraordinary degree. They enable the stomach to digest any ordinary food, increase the secretive powers of the liver, cleanse and purify the blood, expel all morbid matter, and throw into the circulation the purest elements for sustaining and repairing the frame.

Weakness and Debility.

How many persons suffer from debility without knowing the causes why they are feeble! In most cases the stomach is the aggressor. Holloway's Pills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are therefore confidently recommended as a never-failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Diseases of the Head and Heart.

These formidable diseases are, unfortunately, of frequent occurence; for the most part they creep on gradually, but may be prevented by proper precautions. Holloway's Pills are the surest preservatives against all derangements of the brain and are the speediest correctors of irregular circulation. If they be taken without delay when tingling in the limbs, drowsiness, or giddiness comes on, the effect will be marvellous

Females of all Ages and Classes.

The fame of these Pills is partly based upon the beneficial effects they have upon the constitutions of females. From the domestic servant to the peeress, universal favour is accorded to them for their invigorating and purifying properties, which render them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhood or approaching the turn of life—the most critical period—may be radically removed by a recourse to these Pills.

All Disorders affecting the Liver, Stomach and Bowels.

Whenever the stomach, liver, or bowels are disordered by high living, climate, over-indulgence, undue excretion or other causes, these fine regulating Pills will soon rectify the evil, and speedily bring back energy, strength, and cheerfulness to the frame where previously all was lassitude, gloom, and dejection.

Despondency, Low Spirits.

The misery occasioned by a disordered digestion is unfortunately, felt by most. These famous Pills should be taken in appropriate doses, to adjust the disturbed functions. They dispel headache, biliousness, nausea, lowness of spirits, and all similar ailments. A course of these invaluable purifying Pills never fails in removing the cause of such morbid affections, without subjecting the sufferer to any inconvenience.

Influenza, Diptheria, Bronchitis, Coughs and Colds,

In our changeable climate, few persons escape without colds, sore throats, influenza, diptheria, or bronchitis, for all of which these famous corrective Pills may be taken with the certainty of effecting a cure. While the Pills are expelling all impurities from the body generally, Holloway's Ointment should be well rubbed upon the chest and throat; it will penetrate the skin, reduce inflammation, and restore lasting soundness.

Holloway's Pills are the best remedy known in the World for the following diseases:—

Ague
Asthma
Bilious Complaints
Blotches on the Skin
Bowel Complaints
Colics
Constipation of the Bowels
Consumption
Debility
Dropsy

EUROPEAN AFFAIRS.

While the Spanish and Chilean difficulty presents no new prospects for settlement an insurrection has broken out in Spain herself. Our late advices show that the principal cities are either under martial law or in open revolt. The insurrectionary commander, General Prim, at the head of 1200 cavalry, has raised the standard of rebellion, and has already beaten Marshal Concha. A large portion of the army is, it is said, in favor of Prim; but Marshal O'Donnell is still the great power in the Government, and it is more than possible that he will be able to resist the threatening movements of the insurrection. There is, however, but one alternative for the safety and peace of the country, and that is the abdication of the Queen. "With Madrid," says a London paper, "so favorable that it was necessary to put it under martial law, the troops in four garrisons in revolt, the great city of Malaga scarcely restrained from insurrection, Barcelona descending into the streets, Andalusia honeycombed with friendly secret societies and the whole Radical party at his back, General Prim either could not or would not march upon Madrid. Of course, his friends pause, and of course also if he is caught with only two regiments in his company, he may be executed and they shot down before aid can be even summoned. In that very probable case Marshal O'Donnell will be master of the situation, and find himself exactly where the Progressista party is now, face to face with the problem of a Queen whom he cannot control, or replace, or dismiss from a throne which filled by her is inconsistent with the national life of Spain, yet cannot remain unfilled. Or in the equally probable alternative that the troops "pursuing" General Prim join him *en masse*, then the Progressistas will be masters, and be compelled, as their first step, to solve the problem of managing or superseding an inevitable Queen who is also, at least for their purposes, an impossible one, whose dethronement would be the signal for civil war, while her continuance on the throne protects a chronic anarchy."

A rather extraordinary case has just come up before the English public in a police court, and is thus stated in the London *Times*. On the 5th of January a gentleman of the name of Fletcher called at the Union Bank of Australia in London, and charged himself with having committed a serious robbery in the branch bank in Melbourne. He stated that he had been a chief clerk in the bank, and that a year and a half ago he broke open a box containing valuable securities and bonds to the value of £15,000. He remained for a considerable period in the bank entirely unsuspected, but ultimately fled to England, thence to the United States and to Buenos Ayres. Discontented, it appears, with his mode of life, he came back to England, acknowledged his offence to the bank and surrendered himself. The only restitution he could make was £1500, and he made it. The bank, however, did not give him into custody, and he surrendered himself to the police authorities. He was brought up before the Mansion House, and the facts of the case were stated by himself. The bank authorities showed a willingness to prosecute, but Alderman Finnis, before whom the case was heard, declined to retain the prisoner, on the ground that no warrant for his apprehension had been received from Melbourne. The prisoner was, however, not to be baulked, and went into his own recognizances to appear at a future day. The necessary time elapsed to obtain a warrant from Australia, but the warrant did not come, and the magistrate dismissed the case. The *Times* comments on the absurdity of the law that requires a warrant from the colony in which the crime is committed before the person can be arrested. The case is a very novel one, and would almost lead to the conclusion that the would-be convict is a little deranged, did not the fact appear that the robbery of which he speaks was actually committed.

Almost equal in novelty to the above is the visit of one of the contributors of the *Pall Mall Gazette* to the Lambeth workhouse, in the disguise of a destitute artisan to test the philanthropy of the institution. The ordeal was not at all to his taste and unfolds a rather curious picture of the accommodation that is afforded the houseless poor. The writer was divested of his clothing, tumbled into "a bath where the other houseless poor had been washed—and the appearance of which after that process, he describes as disgustingly like weak mutton broth—and then with only a check shirt on and with a rug over his shoulders, was compelled to walk through the open air and on bare stones to the half open shed in which thirty comrades were already housed, each on his hay bag. The cold was terrible, though the kindly attendant taking a liking to him, brought him a second rug; his bed was stained with the blood of some predecessor, and worst of all the conversation was foul and filthy in the extreme." We are afraid the "houseless poor" fare rather badly in the institutions which philanthropy supplies them. We can easily understand how the more refined will rather slowly starve and become subjects for the coroner, than enter such places as the writer in the *Pall Mall Gazette* describes. We can easily understand the statements which appear in the recent London papers, that a Mrs. Bellinger was starved to death in her mother's house, and that a needlewoman named Margaret Fairservice was found dead in her room of cold and want. Nor is it to be wondered at that where such criminal neglect is shown in the workhouses, an equal amount of inhuman indifference is to be found in the workhouse hospitals. "In one of these hospitals," says the *Spectator*, "it appeared that about one-fourth of the patients are every night turned into the other wards, and then locked up without light or means of communicating outside the ward. One poor man of sixty-five, named Fellowes, was so locked up while suffering from bronchitis, tumbled out of bed and died. No report even was made till the morning." We are afraid Mr. Carlyle's onslaughts on the shams of life and the hollowness of civilization have not produced much effect on the "way things are managed in England," and we are equally afraid that the condition of the poor is too insignificant a subject to disturb the rest of our Imperial statesmen or cause poignant grief to the fashionable life in London.

BIG BEND GOLD MINES,

British Columbia

The **Safest**, the **Shortest** and the **Cheapest Route** to these rich **Placer Mines** is by way of

Victoria, Vancouver Island.

Passengers going this way have not to cross the dangerous Columbia River Bar, and the distance is over **One-Third—or 279 Miles—Shorter by way of Victoria** than by way of Portland.

The Governments of Vancouver Island and British Columbia have subsidised the following powerful steamers to carry miners from San Francisco to Victoria and New Westminster direct:—

The Hudson Bay Co.'s Stmr. Labouchere, Capt. Mouat.

The Cal. S. N. Co.'s Stmr. Active, Capt. Thorn.

These, or other first-class steamers, will run on this route regularly, and will connect at Victoria with swift River steamers carrying passengers to Yale, a distance of 175 miles. From Yale to Savana Ferry, a distance of 133 miles, there is a splendid Government Wagon Road and Comfortable way-side Houses every few miles; over this road travellers can easily walk, or they can ride in Barnard's Fast Four-horse Stages. From Savana Ferry the Hudson Bay Co.'s new and swift **Steamer Marten** will run to Ogden City, upper end of Shuswap Lake, a distance of 111 miles. From Ogden City to the Columbia River, a distance of 34 miles, there is an excellent Government Pack Trail.

Miners Going to the Rich Mines of BRIDGE RIVER —OR— CARIBOO

can do so by the Government Wagon Road rom Yale, over which it is easy to walk, or travellers can ride in fast Stages.

The Steamers running from San Francisco for the conveyance of passengers, by way of Victoria and the Fraser River, being under contract to the British Colonial Governments, the Rates of Fare charged are very low, and passengers are expeditiously, comfortably and cheaply conveyed from Victoria to the mines.

Miners going from San Francisco to the British Columbia Gold Mines will derive another great advantage by visiting the FREE PORT OF VICTORIA. In Victoria, Miners can supply themselves with every article they require, free of duty, and 25 to 50 per cent cheaper than they can buy similar goods in California or Oregon.

THIS IS TO CERTIFY

THAT A LITTLE MORE THAN fourteen years ago, owing to a severe fit of sickness, I lost nearly all of my hair, the crown of my head becoming quite bald, and has been so ever since until the past summer, when hearing of the marvellous success of W. O. Moses in several cases where it seemed almost hopeless to do so, on Williams Creek, Cariboo, I was induced to let him try his skill on me—but without faith in his ability to restore my hair, it having been so long out; but miraculous as it may appear, in three months' time I was happily surprised to find a new growth of hair coming out, which is daily becoming stronger and thicker. To any one requiring his professional services as above, I would merely say that he possesses a skill and knowledge in restoring hair that I have never met with before.

BIRTH

In San Francisco, Feb [illegible] of K. Gambitz, of a son.

DIED.

[illegible] on the 28th February, James [illegible] and Margaret Robertson, aged 6 years and 9 months.

The funeral will take place from his parents' residence on Pandora street this day, at 2 p m.

Died on the 2nd of January last, at his residence in Bordeaux, France, at the age of 75 years, Mr. L. L'Hotelier, native of St. Peter, Island of Martinique, and father of L. L. Hotelier, merchant in Victoria.

TELEGRAPH LINE.—Mr. E. Conway, local Superintendent, who arrived by the Active from San Francisco, with several of the company's officers, brings the welcome intelligence that the steamer George S. Wright and the bark Clara Bell were to leave in a few days with the telegraph cable on board to complete the communication between this Island and the rest of the civilised world. The line is expected to be in working order to Victoria by May next. Mr. Conway proceeds to New Westminster this morning, and will go north to assist in the survey of the Russo-American line some time in March.

IMPORTANT RUMOR—A private letter received from England by this mail mentions as an item of domestic intelligence that the writer had made the acquaintance of members of the family with whom the *new Governor of British Columbia* had intermarried. The name of the new Governor is not given, and some incline to the opinion that the person meant was Governor Seymour himself, while others believe that a change in the Administration of the sister colony has really taken place.

THE PORTLAND TRADE.—It is rumored that the fine steamers Montana and Idaho, belonging to the Anchor Line, and now running to Portland in opposition to the California Steam Navigation Company's steamers, will visit this port on their return trips. This if true will supply a *desideratum* much needed, and will enable a large number of miners to adopt the shortest and best route to Big Bend.

NAVAL—H M S. Malacca left Portland, January 5th, for the Pacific.

MONS. B. DEFFIS wishes to state that having as many pupils as he can attend to properly during the season, he much regrets that he will be under the necessity of refusing further applications for lessons. He would at the same time take the opportunity of recommending to parties desirous of obtaining instruction in the French language, Mons Victor Lange, as an efficient teacher. *

TERPSICHOREAN.—Mrs. Digby Palmer holds her dancing classes at the Germania Sing Verein Hall, Royal Exchange Buildings, Government street every Wednesday and Saturday evening from 8 until 11 o'clock. Terms $5 per month.

CAUTION TO MINERS GOING TO BIG BEND.—No one should start for these mines without being quite sure that his teeth are in good order. F. W. Cave, Dentist, Trounce Alley, opposite the COLONIST office, is still practising his profession at English prices. *

PRINCE OF WALES—Oxford Hats, received per "Dominga" from Townend & Co., London.—A fine invoice of the above very stylish and fashionable Hats.—ADAMS, Pioneer Hatter, Government street and Trounce alley. *

GO TO THE EUREKA CONCERT ROOM, the most popular, fashionable and attractive place of resort in town, where in addition to the most attractive talent, the proprietors have engaged several efficient waitresses.—Music and singing commences every evening at nine o'clock.—Glover & Co., proprietors. *

THE LANGLEY STREET ROBBERS CAUGHT.—On Tuesday night information was brought to the proper quarter of the whereabouts of the Chinamen who had robbed Mr. Copland's premises. Inspector Hankin, Sergt. Wilmer, and Mr. Copland at once proceeded to the spot indicated, a secluded shanty in an out-of-the way place leading out of the Saanich Road, and having examined the premises to see that there were no means of escape, the party, headed by the Inspector, made a rush at the door, which they forced open and surprised the inmates, eight in number, including Pat Tow *alias* Joe, the servant for whom the one hundred dollars reward was offered, and his friend and accomplice the doctor. The Chinamen were speedily overawed and secured and their "queues" having been tied together were driven to limbo, the loser of the money holding the ribbons with a cocked revolver at command and handling his eight in hand team with extreme gusto. During the arrest the culprit Joe made an effort to esconce himself in a pit which had just been dug under the flooring beneath the bed, five feet long and three feet wide, evidently for the purpose of secretion in case of alarm. On the doctor's person $140 in $20 pieces were found sewn up in the lining of his coat. On another man were found some nuggets recognised by Mr Copland. Two policemen were detailed to make further search, and we learn that another $20 piece and traces of other robberies were found. The gang were brought up in the police court yesterday morning and remanded. The police deserve great credit for this capture.

QUEEN CHARLOTTE COAL MINING COMPANY LIMITED—The following letter received by the Secretary of this Company by the Active proves the quality of the coal brought from their mine:—

Steamship "Del Norte,"
San Francisco, February 20, 1866

DEAR SIR—I have caused the coal sent to me at Victoria by you to be burned on board of my vessel, and have the satisfaction to say that it is clean and good. It gives better promise than any coal I know of on this coast with the same amount of development. I regard it as semi-bituminous, but not having the convenience of subjecting it to a close analysis, will not say positively that such is the case. Its weight gives promise of usefulness on ship board.

Very respectfully yours
WM H. FAUNTLEROY.

BIG BEND MAP—We have been shown a specimen copy of a map indicating the routes to the Big Bend diggings, prepared by Mr. Robert Homfray, Civil Engineer, and lithographed in San Francisco under the auspices of the Chamber of Commerce. The map is of convenient size, artistically executed, and will serve admirably as a pocket guide for miners intending to proceed to the mines. The routes to Cariboo and to Kootenay are also laid down.

ERROR.—Through misinformation either willful or unintentional, derived from an outside source, our reporter was led into error in announcing yesterday that judgment had been passed the previous afternoon upon the prisoners convicted of riotous conduct in the Occidental Saloon. The sentence of the Court, which was pronounced yesterday, is given *in extenso* in another column.

SALE OF REAL ESTATE.—Messrs. J. P. Davies & Co. sold yesterday the entire front of Douglas street, from Fort to View street, to E. Grancini for 9,400, with the improvements thereon, also the opposite lot, with the building occupied by Carson [illegible] to S. Zinn, for [illegible] The [illegible] was sold to Mr Martin of [illegible]

[illegible] Esq., Acting Manager of [illegible] in company with Mr [illegible] for some time. [illegible] Superintendent, will take charge of the establishment here during Mr. Ling's absence.

SHIPPING—The Evelyn Wood was loading at London at latest dates, and the Mackay at Liverpool for this port. The Mohawk, Capt. Davies, left Deal on the 12th January. The barks W. D. Rice and W. A. Banks are now on their way from San Francisco with large and valuable cargoes.

CHURCH PREFERMENT—The Belfast *News-Letter* mentions the preferment of Mr. Edmund M'Clure, M. A. Queen's University, younger brother of the junior member for Victoria City, to the Curacy of St. George's, Belfast, Diocese of Connor.

THE VOLUNTEER BENEFIT—The box office of the theatre will be open to-day between the hours of 11 a.m. and 3 p.m., when seats may be secured for the forthcoming Volunteer entertainment; also on each succeeding day until Monday next, the day of performance.

UNION OF THE COLONIES—We heard yesterday in several quarters of information having been received through authentic sources of the accomplishment of the much talked of Union. No conditions are, however, as yet specified.

FOR NEW WESTMINSTER—The steamer Enterprise left yesterday morning for Fraser River, taking about 40 passengers and some freight, also the mails brought from San Francisco by the Labouchere.

DEBATE—The adjourned debate on "the initiation of money bills" will be resumed this evening, Mr. J. Pidwell re-opening in the affirmative.

THE STEAMER ACTIVE will leave for New Westminster this morning at 7 o'clock returning to Victoria on the following day.

FUCA STRAITS COAL CO. (LIM)—The interest in this mine was knocked down yesterday to Mr. E. Grancini for the sum of $250

VALUABLE CARGO—The manifest value of the steamer Labouchere's freight is $36 350.

AUSTRALIA.

[From the S. F. Bulletin.]

By the British Bark Novelty 35 days from Auckland, we have via New Zealand later dates from Australia:

A lot of prisoners at Champion Bay made their escape and seized the steamer Lass of Geraldton, making an armed attack upon the crew. The latter resisted bravely; a terrific fight ensued resulting in the defeat and subsequent capture of the rascals.

A despatch from Adelaide dated Dec. 2d, says that further discoveries of silver and lead ore have been made in the Rapid Bay district.

A shepherd named Richard Hudson, of Wentworth, was horribly murdered by a native and his body thrown into the river.

A public meeting was recently held in Sydney to protest against the tariff as proposed by the Government.

Lady Don is playing a star engagement at the Prince of Wales Theatre in Sydney.

Branches of the Bank of Adelaide have been opened at Melbourne, Sydney and London.

THE ASSIZES.

THIRD DAY.

[BEFORE CHIEF JUSTICE NEEDHAM.]

WEDNESDAY, Feb. 28.

MURDER.

Regina vs. Seal Hampton—Mr. Ring defended the prisoner, who was acquitted by the jury and discharged.

STABBING AND WOUNDING.

Regina vs. Wm. Goldsworthy—Cutting and wounding W. Trestrail, &c. The particulars of this case have been several times before the public of late. A jury was empanelled, with Mr. Beeman as foreman. The accused, who pleaded not guilty, was defended by Mr. Ring, instructed by Mr. Bishop. After hearing what evidence was adduced on the part of the Crown and the addresses of counsel, His Lordship put the case strongly to the jury against the prisoner. After being absent for about half an hour the jury returned a verdict of NOT GUILTY.

His Lordship discharged Goldsworthy with a wholesome caution, informing him that had the jury found a different verdict it would have been his duty in the interests of society and the protection of the peace to have inflicted a severe punishment.

ROBBERY.

Regina vs. Dick—The prisoner, who is a Nanaimo Indian, of a notoriously bad character, was charged with robbing the premises of Wm. Biggs, at Nanaimo, and stealing property to the value of $40.

The prosecutor and Sergeant Blake were examined, the officer giving the prisoner a bad character, and the jury having found him guilty without leaving the box, his Lordship sentenced him to three years' imprisonment with hard labor.

THE THORNDYKE MURDER.

Regina vs. Ilhausit and Quamish—The Attorney General was not prepared to proceed with this case, owing to the absence of a material witness and for other causes, and applied to the court for a remand.

His lordship dismissed one of the Indians, who was only held as a necessary witness, and said that the case being a very serious one, involving the cool and deliberate murder of a white man, he should entertain an application founded on affidavits.

THE OCCIDENTAL EMEUTE.

The four prisoners James Brown, Daniel Watson, Wm. E. Andrews, and Henry E. Robinson, were called up for sentence.

His Lordship, addressing the first named prisoner, said:—The jury had found the prisoner guilty on a count charging him with an assault and doing grievous bodily harm to one of his fellow men. The court had carefully and anxiously weighed all the circumstances of the case to see if there was anything that could be held out in mitigation of the sentence it should pronounce, but it could find none. The act of which the prisoner stood convicted was a brutal one, and there were no extenuating circumstances as regarded him (Brown). The punishment which the Court was about to award was not directed against the prisoner individually, but through him to others, in order to protect this community and to preserve that peace of mind so necessary to its well being. So long as unoffending persons were subject to such brutal attacks as had been committed on the person of Mr. Vinter, there was no longer any security to the public.

His lordship then sentenced Brown to two years' imprisonment with hard labor.

His Lordship then addressing the prisoner Watson said:—This prisoner had also been found guilty, but of the lesser offence of common assault not coupled with grievous bodily harm. Although the offence was of a lighter character, still it bordered closely on the same offence for which James Brown had been punished. It was clear that they were all out together for effecting some [illegible] prisonment, with hard labor.

Addressing the prisoner Andrews, His Lordship said he had carefully looked over the evidence, and considered how it bore upon him (the prisoner) in respect to riotous conduct, and found it was much the same with him as with Watson. What the latter did with a chair Andrews did with a sword taken from the person of Mr. Vinter, and threatened to run any one through with it. Drunkenness did not extenuate conduct of that sort, but rather added to it.

The prisoner was sentenced to six months' imprisonment with hard labor.

Addressing Robinson, His Lordship said that he was unable to find in the evidence anything that bore upon any distinct act committed by the prisoner upon Vinter or Plummer, but he was there and aided the assailants instead of defending Vinter. Although there was not a violent act shown, the court was bound to pass a sentence that would operate as a warning, and taking into consideration the six weeks already passed in prison, the sentence of the court was that the prisoner be imprisoned, without hard labor, for 15 days.

THE HIGHWAY ROBBERY.

Francis and William Ross were next called up, and His Lordship addressing them said: The jury in this case on the clearest possible testimony had found them guilty of highway robbery and stealing from the person. There were facts connected with this case which, but for the manner in which the indictment was framed, would have placed the prisoners in the position of forfeiting their lives, because if in addition to robbing from the person there was personal violence offered, the statute so provided. In this case it was shown that the Chinaman was violently struck on the head. The attack was a most brutal one, and the only extenuation offered was that it was a drunken frolic. Although the Court was anxious to consider well what would operate in favor of the prisoners, it could discover no extenuation. The jury, however, had recommended them to mercy, and although the Court itself was unable to see sufficient ground for that recommendation—for a more brutal act, and one more desirous for the interests of the community, to be suppressed it could not conceive—still, in deference to the recommendation of the jury, which it always respected, it would pass a less severe sentence than it would otherwise have done. The prisoners were liable to 15 years penal servitude, and but for the recommendation of the jury the Court would have seen no reason to pass a less severe sentence. Considering, however, that recommendation, and with a hope that it would act beneficially as a warning to others, the sentence of the Court was that the prisoners Francis and William Ross be sent to penal servitude for five years.

LARCENY

Ah Keon, the Chinaman who pleaded guilty to having stolen jewelry from the premises of his mistress, Sophie Colombe, was sentenced to six months' imprisonment, His Lordship remarking that the sentence was mitigated in consequence of the prisoner's mistress, who was the party most aggrieved, having strongly recommended him to mercy and given him a good character, a fact which, when a man fell into error he considered should always be taken into consideration.

His Lordship then thanked the jurors for their services and dismissed them.

HOLLOWAY'S PILLS AND OINTMENT—Biliousness.—Dyspepsia.—There is no organ in the human body so liable to derangement as the liver. Food, fatigue, climate, and anxiety, all disorder its action, and renders its secretion—the bile—more or less depraved, superabundant, or scanty. The first symptoms should receive attention. A pain in the side, or the top of the shoulder, a harsh cough and difficulty of breathing, are signs of liver disease, which are removed without delay, by friction with Holloway's Ointment. The Pills should also be taken early. For all diseases of this vital organ, the action of these conjoined remedies is a specific, by checking the over supply of bile, regulating its secretion and giving nervous tone.

LATEST EASTERN NEWS.

Mr. Seward's Speech.

The Senate Committee on Territories reported a bill to extend the boundaries of the State of Nevada, thereby wiping out the Territory of Utah.

NEW YORK, February 21—The steamer New York sailed to-day for San Francisco with 300 troops.

CHICAGO, February 22—Important political conventions and public meetings are being held to-day at Washington, Indianapolis, St. Louis, New York, Nashville, Louisville, etc., all of which will make declarations on the President's policy. Peculiar interest attaches to the Republican State Convention of Indiana.

NEW YORK, February 22—General Grant is at the Metropolitan Hotel. A reception is preparing for this evening. It will be a grand affair.

A banquet was given to the American Minister at Moscow in acknowledgment of the courtesies shown to the Russian fleet. It was a grand affair. Mr. Clay responded in a suitable manner. Mr. Curtin, Secretary of Legation, spoke of the Russian-American Telegraph as a common achievement, binding the two countries together, and expressed the hope that good fellowship would always prevail. At the conclusion of his speech Mr. Curtin was seized and kissed by every Russian present.

NEW YORK, February 23—Following are the additional remarks made by Mr. Secretary Seward at the Cooper Institute last evening: Mr. Seward said Congress agonizes over the question of reconstruction, not because the war has not come out right, but because they have not individually had a hand in bringing it to a happy termination.

I hoped no serious difficulty, from the conviction that there never was and never can be any successful process for restoring union and harmony among the States except the one which the President has avowed himself satisfied with. The President is in harmony with all the States that were in rebellion, and the Executive and Judicial departments are resuming their functions.

Loyal representatives, more or less, from these States are now standing at the doors of Congress, and have been standing for three months, asking to be admitted as States which disloyal representatives had previously left. In the meanwhile Congress passes law after law; imposes burden after burden and duty after duty upon the States which, against their earnest desire, are left unrepresented. Say what you will, the States are already organized in harmony with our amended Constitution, and are in earnest co-operation with the Federal Government.

It is impossible to reduce States to a territorial condition. Congress has had a Reconstruction Committee of 15 members who have stopped the wheels of legislation for three months to enable them to submit a plan different from that which is now on the eve of a happy consummation, and what have they given us or proposed? An amendment to the Constitution to compel the excluded States to equalize suffrage, on penalty of the abridgment of their representation. This was no plan of reconstruction, but of obstruction.

The conflict in opinion between the President and Congress, in reference to the Freedmen's Bureau, is in its consequences comparatively unimportant. It would excite little interest if it stood alone. Both fully agree that this Bureau was created for the transition period between war and peace, and should cease at the end of that period. The President thinks that period nearly passed and that the original provision is sufficient, while Congress thinks the original provision needs enlarging. I agree with the President, in the hope that this extraordinary provision [illegible] the President to be [illegible] people. It will be a sad hour for the Republic when the refusal of unnecessary powers and patronage by a President shall be held a crime. When it shall so be considered, the time will have arrived for setting up at the White House an Imperial throne, surrounding the Executive with Imperial legions.

SENSATIONAL WASHINGTON NEWS.

WASHINGTON, February 23—While the crowd who were surging to and fro in front of the White House yesterday, guards were placed around the entrance, and none but Democrats were allowed to pass. (!)

OTHER DISTINGUISHED SPEAKERS.

The meeting was also addressed by Postmaster General Dennison, Henry J. Raymond, Francis B. Cutting, Daniel S. Dickinson, George Opdyke, and dispersed at a late hour.

Mr. John Wentworth, who was in front and near the guard, was pressed back by soldiers. He remonstrated, when the policeman said he would arrest him if he did not keep still. Wentworth dared him to try it, with a loud voice, and then said, "You have murdered Lincoln and now you want to destroy Johnson." (!)

FROM MONTANA—DUBIOUS REPORTS

A correspondent of the Sacramento *Union*, writing from Nevada City, Montana, gives a somewhat discouraging account of affairs in that territory. He is of opinion that the mines are not near as good as those of California. He says:

Many have made fortunes here, but it has cost at least 75 cents for every $1 obtained, owing to the depth of stripping being from 8 to 15 feet, and much of the diggings on the low bars and toward the head of the gulch are still deeper, being from 20 to 50 feet, and have to be drifted and timbered, which is quite expensive. Taking all things into consideration, such a gulch in California at any time prior to 1856 would have created no unusual excitement; and I will hazard the assertion that nine out of every ten gulches, of corresponding length, in California have paid more per diem for all the labor expended than this has ever done or ever will do. There have been many new gulches discovered in the past year, among which may be mentioned Last Chance, Blackfoot, Confederate, McClellan and Montana as the richest * * *

There are two great drawbacks to successful mining in this Territory. First is the long cold winters, in which all mining operations are suspended, except prospecting; and, in the second place, the enormous prices of living. Merchants here are like the negro who said if he bought anything for one dollar and sold it for two he was sure he made 1 per cent., and was satisfied. But the negro's one per cent. does not satisfy the "Shylocks" of Montana, but two and three hundred per cent. is often charged for any article that may chance to be scarce in the market. A few items I will note, that are on the rampage just now: Tobacco comes first (I am out) and sells at from $3 to $8 per pound; tea, from $3 50 to $5; coffee, $1 25; salt, 75 cents; matches, 50 cents per box; axe and pick handles, $3 each; California whisky and brandy from $8 to $15 per gallon. Now, whenever miners think of such extortions, by a combination of heartless merchants, we exclaim with one voice, 'that if Montana merchants do not

PROGRESS OF THE WAR.

VALPARAISO, Jan. 2d—There is nothing important to advise from Chile. The successor of the late Admiral Pareja has raised the blockade of Coquimbo, by concentrating the Spanish squadron at the two ports of Valparaiso and Caldera. These two are now the only two blockaded ports.

The Spaniards would seem to be afraid of separating the vessels of the fleet and exposing them singly to the attempts of Chile. This new commander of the squadron, Nerñez, is still a young man, and is said to have raised himself to his late command of the Numancia, by his bravery. We hardly think however that he will, under existing circumstances, attempt anything decisive in the war till he is fully in communication with the Cabinet of Madrid.

On the 27th of December an attempt was made by the launches of the Spanish vessels Numancia and Barenguela to capture the Chilan steamer Corbalan, at anchor at Calderilla, but after getting possession of her they were driven off by the Chile soldiers firing on them from the shore, several of the Spaniards being shot. Two other attempts were made by the blockaders to regain possession of the Corbalan by steam launches under protection of the Berenguela, which were equally unsuccessful.

On the news of the death of Admiral Pareja reaching Valparaiso, the Intendente supposing the body to exist still on board, offered to permit the interment of it on shore, to which an answer was returned that it had already been committed to the deep.

The trade of the country goes on briskly. Though Valparaiso itself is blockaded, some twenty-two vessels were loading and unloading at the ports of Papudo, Algarrobo and San Antonio, communicating inland with Valparaiso. At all the unblockaded ports trade is brisk, and there is not sufficient tonnage to clear off all the products of the coast waiting shipment.

January 17—The event of the fortnight is the raising of the blockade of Caldera, and the concentration of the Spanish squadron at Valparaiso.

In Caldera the Spaniards burned the five or six sailing vessels they had taken since the declaration of war. The Chile coast is, therefore, for the present open to trade.

What significance there is in this movement it is hard to tell. The Spanish Admiral may intend to send an ultimatum to the Chile Government, threatening the destruction of Valparaiso first, and other towns on the coast following. This will not bring the people or government of this Republic one inch nearer yielding to Spain. On the contrary, the news by last mail of the assured sympathies of all Europe and America, has encouraged every heart in the country against Spain, and the Spaniards are become the object of a spirit of revenge which a century of peace or political reconciliation will not remove, and whether they may be able to assert it or not—nothing will now effect any such political reconciliation satisfactory to Chile, but the apology of Spain and the payment of ample damages.

It is not known where the Chilian fleet may now be—but they are on the look out to cut off supplies from the Spaniards, and to effect a junction with the Peruvian fleet, should the Dictator determine, in terms of his declared policy, to ally himself with Chile.

Business continues very dull, and little confidence prevails. Shipments of wheat from the Southern ports are urged on, Australia still gets considerable shipments. One thing is sure, Spain can never interfere with our "seed time and harvest," nor till she gets out three times the fleet she has, can she stop our export of produce.

MEXICAN NEWS.

A [illegible] letter received at San Francisco [illegible] from Mazatlan [illegible] incog. some [illegible] last accounts. A council [illegible] by Corona, Rubi, Ogazon and others, held at Mazatlan a few days before the sailing of the steamer and the question of attacking the town fully discussed. Corona declared his ability to carry the town in an hour, but opposed the movement, as to do so would be to ensure its immediate destruction by the French war steamers Victoire and Lucifer, then in the harbor. Rubi and Agazon, on the other hand, were in favor of an immediate attack. On the 12th inst., while the Liberals were raiding into the suburbs and firing on the garrison, a party in nine boats, coming from an island in the vicinity, where they had been concealed, landed and carried off Captain Avalaz, of the Imperial garrison, with twenty-two men from the city front, and escaped with their prisoners without the loss of a man.—*Alta.*

NEW ZEALAND.

By the bark Novelty we (*Bulletin*), have New Zealand dates up to Dec. 20.

The trial of the Whakatayi's murderers was concluded and sixteen of the prisoners were condemned and sentenced to be executed.

The Maori war still continued. A battle was fought between the English and native forces at Poverty Bay, Nov. 20 in which the latter were defeated with heavy loss. Hoohan was evacuated by the rebels, 120 guns and 180 prisoners falling into the hands of the victors. The English loss was quite heavy—the enemy fighting with great desperation.

The insurgents at Koahai are still unsubdued. An overture of peace was disdainfully rejected by them, and they were vigorously preparing for war.

HOLLOWAY'S OINTMENT AND PILLS—These potent remedies constitute a *materia medica* in themselves, for there is no internal or external disorder controllable by medicine for which the one or the other of them is not a positive remedy—eruptions, tumors, scrofula, scurvy, cancer, asthma, rheumatism, gout, and dropsy entirely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astonishing results imaginable. The student of Nature knows how simple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

TO WHOM IT MAY CONCERN

THIS IS TO CERTIFY THAT FRO some cause or complaint of the head our hair commenced falling out so rapidly that we feared we should lose the whole. In this condition we went to W. D. We make this certificate with pleasure, believing it to be for the public good.

Moses' Hair Invigorator,

TO PREVENT BALDNESS, RESTORE hair that has fallen off or become thin, and to cure effectually Scurf or Dandruff. It will also relieve the Headache, and give the hair a darker and glossy color, and the free use of it will keep both the skin and hair in a healthy state. Ladies will find the Invigorator a great addition to toilet both in consideration of the delicate and agreeable perfume, and the great facility it affords in dressing the hair, which, when moist with it, can be dressed in any required form, so as to preserve its place, whether plain or in curls. HOLLOWAY'S PILLS

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of the Pills every night; eat plenty of solids, and avoid the use of slops. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters

If there is one thing more than another for which these Pills are so famous, it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water, or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed in to the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance and improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm—in fact they never fail in curing all disorders of the liver and stomach.

Bronchitis, Diptheria, Coughs and Colds

No [illegible] more frequent, few more dangerous, [illegible] the respiratory organs. The [illegible] always be [illegible] renowned Pills. They [illegible] temporary stagnation of the [illegible] the congested veins, moderate the [illegible] windpipe and [illegible] with ease and [illegible] by their purifying powers, cleanse the blood from all impurities, and thus [illegible] against consumption, asthma, and other pulmonary complaints.

Debilitated Constitutions

In cases of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of diseases, re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor.

Biliousness, Loss of Appetite, Headache, and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove excess of bile, and overcome giddiness, headache and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:

BENSON'S WATCHES & CLOCKS

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfection or carefully adjusted mechanism.—*Times*, June 11, 1862.

"A triumph of ingenuity.—*Telegraph*, March 31, 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—*Standard*, June 7, 1862.

"Some of them are of great beauty, and if the English watch trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News* November 8th, 1862

HOLLOWAY'S PILLS AND OINTMENT.—Influenza, Colds.—In diseases of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

HOLLOWAY'S OINTMENT.—Wounds, Scalds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this Ointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and never long tortures the little sufferer, whose very cry excites each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to any sore, whatever its character. It conducts to health as sure as the compass points to the north.

HOLLOWAY'S OINTMENT AND PILLS—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

HOLLOWAY' OINTMENT AND PILLS.—Fistulas, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excoriations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

PILES, STRAINING AND TENESMUS,

Are the results of Inflammation or irritation of the mucous membrane of the bowels, induced by drastic pills—these imperfect pills, instead of being dissolved by the chile, are carried to the lower bowels, and induce a peristaltic movement or evacuation by their irritation—hence the straining, cramps, wrenching pains, piles and tenesmus, and the frequent false calls to the water closet, that patients undergo who take these imperfect pills.

If you would avoid these annoyances, whenever a purgative medicine is required, take a dose of

HOLLOWAY'S OINTMENT AND PILLS.—The family medical chest that is furnished with these powerful remedies needs nothing more. Indigestion, general dibility, liver complaint, eruptions, sores, wounds, ulcers, tumours, &c., are infallibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Ointment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills be taken as an auxiliary, the cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are efficacious.

HOLLOWAY'S PILLS.—No family should be without these pills.—Their long-tried efficacy in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the engorged spleen, clense the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful vigour natural activity, and wholesome regularity. In cases of indigestion, dimness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheumatism and gout, while they infallibly correct female complaints in young and old, delicate and robust.

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAY'S OINTMENT AND PILLS—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

HOLLOWAYS PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evils, and is so common, so universal a complaint, that it is a great blessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at hand.
